## Parent Letter/Order Form

(For books sent to the school)

Dear Parent/Guardian,

The education of our children is more important than ever before. You can give your child a summer of continued learning with our books. Studies show that much of what is learned during the school year is lost over the summer months. Since 1991 the Summer Skills Review Books have provided millions of students with a comprehensive review of materials taught the previous year without adding more screen time to their summer.

With educational demands continuously changing, children need not only a review that keeps current with State and Common Core Standards, but also gives them an academic edge and self-confidence when they return to school in the fall.

Our easy-to-use Math, Language Arts and Foreign Language review books serve this purpose. Requiring only 15-30 minutes three to four times per week, our books provide a succinct review that is not overwhelming.

**Generally the grade level just completed is ordered;** however, you and your child's teacher can best determine what grade level would be most suitable. **Our books are not sold in stores.** For more information visit our website at [summerskills.com](http://summerskills.com).

"We have used several review books in the past, but we have found that the Summer Skills workbooks are thorough and yet simple. My kids can complete lessons independently and the no-fuss structure is a nice change of pace from tech-focused learning throughout the school year. It has been a nice resource to prevent brain drain while also keeping review time short and sweet."

"I knew my choice in purchasing Summer Skills review books for my fourth grader, second grader, and kindergartener was the right one when I attended parent/teacher conferences and the teachers independently said they did not notice any summer slide with all three of our children. It was a bonus that my kids enjoyed the workbooks and willingly worked through, and finished, the books during the summer."

Susan, Parent

"Many, many thanks for your review books and your attention to detail in both math and language arts. Your product line continues to be the best and really helps the students I tutor. I can see a difference already. I am grateful for the consistency of Summer Skills Review Books and the adherence to the Common Core curriculum for alleviating summer slump."
